A Few Words Of Thanks

I have had the time of my life discovering and carefully polishing these musical treasures. On several occasions, I found myself sitting at my computer, listening in slack jawed amazement to a song of Cheryl's that I had never heard before. These discs are a wonderful opportunity for other Cheryl Wheeler fans to do the same, and to spend more time with songs they already know and love.

I owe an incredible debt to Bill Pringle whose collection of live recordings has made the breadth of this compilation possible. As I told Cheryl once, I'm a parasite. I don't make or seek out concert recordings. I just wait for things to arrive in my mailbox. Perhaps this project can be my way of thanking Bill and everyone else who has gotten a microphone or a patch cord into the right place on concert night.

Most importantly, *No Previous Record* could not have happened without Cheryl's support and encouragement. Her willingness to allow us to make and distribute this unusual compilation, and her fearlessness in revisiting the songs and performances of more than 26 years have been a tremendous benefit to the project, and an inspiration to me.
